i Bluetooth performance and connectable distance may be subject to interference from the environment and other client devices, users may be able to reduce effects of interference by minimizing the number of active Bluetooth wireless devices that are operating in the area.
ii RFID and Fingerprint scanner are mutually exclusive options.
iii 13.56MHz Contactless RFID/NFC reader (ISO 15693, 14443 A/B, Mifare and FeliCa™ compliant).
iv Battery life testing conducted under MobileMark 2007. Battery performance will vary dependant upon

software applications, wireless settings, power management settings, LCD brightness, customized modules and environmental conditions. The battery has a limited number of charge cycles and may eventually need to be replaced by a Getac service provider. Battery life and charge cycles vary by use and settings.
v Weight varies from configurations and optional accessories.
vi Tested by an international independent third party test lab following MIL-STD-810G.
