

LX400

COLOR LABEL PRINTER

PRIMERA
TECHNOLOGY, INC.

www.primeralabel.com

Save Time and Money by Printing Your Own Short-Run Color Labels!

The LX400 utilizes the latest in high-resolution inkjet technology to print brilliant full-color product labels right in your office or production facility. It has spectacular 4800 dpi print resolution and high throughput speeds. This is the same top performance that the LX810, "big brother" to our LX400, provides but only in a smaller format. It is the best choice for businesses and organizations that demand solid performance and value. Your labels can include full-color photos, illustrations, graphics, text and bar codes. Print them when and where you need them – in quantities you can really use! Best of all, depending upon the quantity you print, the price per label will be significantly less than labels printed on flexo or offset.

Introducing the LX400 Color Label Printer from Primera Technology.

LX400

COLOR LABEL PRINTER

- With the LX400 there are...
- No more long lead times
 - No obsolete label inventory
 - No plate and die charges
 - No minimum order requirements

Professional-Quality Results

There's no need to settle for low-resolution color labels on your products. LX400's incredible 4800 dpi printing delivers results that far exceed virtually any other on-demand print method available today. Four built-in print resolutions let you select the combination of print quality and speed that fits your application best. No matter which you choose, your labels are bright, colorful and professional.

Creating labels takes just minutes on your Windows XP/2000/Vista or Mac OS X, 10.2 or higher. You can mix any combination of text, graphics, photos, illustrations and even bar codes.

Easy to Use NiceLabel™ SE Design Software is included for your basic label design needs. You can also use most other graphics applications, such as Photoshop® and Illustrator®, giving you maximum flexibility and creativity in your designs!

Get Up and Running Quickly

From initial set-up to full operation, the LX400 is easy to use. Plus, everything you need to start printing labels is included in the box.

Each LX400 ships with NiceLabel™ SE design software, sample roll of high-gloss labels, ink cartridge and USB cable. You'll be printing full-color labels within minutes of taking the printer out of the box.

Many Applications

The LX400 produces gorgeous, professional-quality labels for all your short-run, specialty products. It's ideal for industries such as gourmet foods, wine and water bottles, personal care and natural products.

It is also perfect for a host of other uses such as:

- Proofing before going to press on longer runs
- Test marketing
- Contract manufacturing
- Private label goods
- Promotional labels
- Full-color box-end labels with all the required bar codes
- And much more!

A Wide Variety of Substrates – Including Water-Resistant Labels!

LX400 prints onto many different label, tag and ticket materials, including inkjet coated high-gloss, semi-gloss and matte labels. Labels printed on high-gloss material are highly scratch- and smudge-resistant and virtually waterproof. This is a perfect solution for primary or box labels that can be exposed to water, rain and snow.

Label print width can be as narrow as 0.75 inches and as wide as 4 inches. Maximum label length is 24 inches.

LX 810

Need to Make Larger Labels?

The LX810 Color Label Printer offers all of the same great features of our LX400 but prints larger labels up to a maximum width of 8.25 inches.

Specialty Applications

The LX400 is also ideal for producing full-color tickets and tags, retail coupons, patient wristbands and much more. The optional, field-installable Media Cutter attaches to the front of the printer and slides down and out of the way when not needed. A fan-fold media slot for tags and tickets is located on the rear panel of the printer.

Price/Performance Leader

Primera Technology is one of the world's leading manufacturers of specialty printers. We've built well over a million inkjet, thermal transfer and dot matrix printers throughout our history. So, you can be confident that your new Color Label Printer from Primera will give you years of reliable performance. Best of all, the LX400 delivers truly professional results at an affordable price!

Technical Specifications

Print Method:	Inkjet
