

The configurations listed on this page are subject to the product launched in the market.

Press the power button to turn on the screen and enter into the boot interface, then operate following the onscreen instructions.

Two network modes can be selected for this device.

Wi-Fi Setting

-Click the button [Setting], and enable WLAN to enter into the interface for Wi-Fi searching.Wait for the available Wi-Fi list;

-Click the Wi-Fi to be connected, and an access password is required if you want to connect to an encrypted network.

LAN Setting

With network connection, you can download and install apps you need from the App Store.

· App Store · Instruction· Pos Steward· Feedback · Remote Assistance
· Gallery · Downloads · Calculator · System Update · ShopCenter
Note: the preset software list is subject to change due to software update.

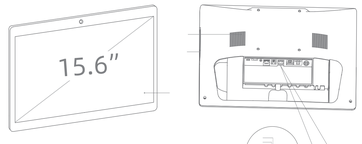

Information display.

Touch screen operations.

Data processing, etc.

Restaurant kitchen data processing.

Checkout information processing, etc.

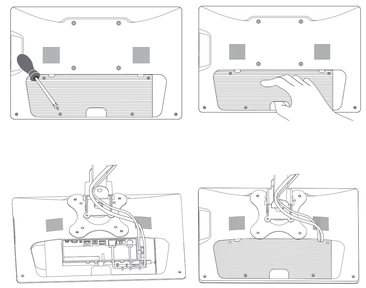

- Press the button to boot up the device when it is off;
- Press and hold the button for 2-3 seconds to power off or reboot the device when it is on;
- Press and hold the button for 11 seconds to power off the device when it crashes.

A touch screen for operators to use.

When the device is connected to a power supply, it will boot up automatically without pressing the power button. The auto start function can be turned on or off by sliding the switch, and is useful in scenarios where multiple devices are used.

POE stands for Power over Ethernet. You can connect the device to a network and a power supply with one cable. To realize POE function, please connect the network cable into a POE switch (POE function is optional).

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
—Reorient or relocate the receiving antenna.
—Increase the separation between the equipment and receiver.
—Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
—Consult the dealer or an experienced radio/TV technician for help.

- Please insert the AC plug into the AC socket corresponding to the input marked on the power adapter;

- Please use the device within the temperature range of 0 ℃ ~ 40 ℃, and store the device and accessories within the range of - 20 ℃ ~ 60 ℃;

- It is strictly prohibited to use the device in places with any potentially explosive gas;

- Non-professional personnel shall not open the power adapter at will to avoid danger;

- This is a class A product. In a domestic environment, this product may cause radio interference, in which case the user may be required to take appropriate measures.

- Battery replacement:
1. There is a risk of explosion if the battery of the wrong model is used!
2.The replaced old battery should be handed over to the maintenance personnel for disposal. Do not throw it into the fire!

- Do not install or use the device during lightning storms to avoid the potential risks of lightning shock;

- Cut off the power immediately when you find a suspicious smell, overheating or smoke!

Due to the update of the product, some details of this document may be inconsistent with the product, and the actual product shall prevail. Our company reserves the right to interpret this guide as well as amend it without prior notice.

- Do not use the device near water or in a damp environment to prevent liquid from getting inside the device;

- Do not use the device in extremely cold and hot environment, such as near fire source or lit cigarettes;

- Do not drop, throw or bend the device;

- Use the device in a clean and dust-free environment to prevent small items from falling into the device;

- Do not use the device near medical facilities without permission.

The Company does not assume responsibilities for the following actions:

- Damages caused by use and maintenance without complying with the conditions specified in this guide;

- Damages or problems caused by optional items or consumables that are not the initial products or approved products of the Company.

- Modification or changing of the product without the permission of our company is not allowed;

- The operating system of this product supports official system updates. If users use a third-party ROM system to update the device or modify the system files by cracking, it may lead to system instability and may bring safety risks and threats.

- This equipment complies with EU, FCC and IC RSS-102 radiation exposure limits set forth for an uncontrolled environment.
- This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.

This device complies with ISED Canada licence-exempt RSS standard(s). Operation is subject to the following two conditions: (1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device.

Le présent appareil est conforme aux CNR d'ISDE Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes:(1) l'appareil ne doit pas produire de brouillage, et (2) L'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

The device for operation in the band 5150-5250 MHz is only for indoor use to reduce the potential for harmful interference to co-channel mobile satellite systems;

Les dispositifs fonctionnant dans la bande 5150-5250 MHz sont réservés uniquement pour une utilisation à l'intérieur afin de réduire les risques de brouillage préjudiciable aux systèmes de satellites mobiles utilisant les mêmes canaux.

Hereby, Shanghai Sunmi Technology Co., Ltd. declares that this device is in compliance with the essential requirements and other relevant provisions of Radio Equipment Directive 2014/53/EU.The full text of the EU declaration of conformity is available at the following internet address:

The description of accessories and components, including software, which allow the radio equipment to operate as intended, can be obtained in the full text of the EU declaration of conformity at the following internet address:

This product may be used in the following European member states subject to the following restrictions. For products that operate in the frequency band 5.150 to 5.350 GHz, wireless access systems (WAS), including radio local area networks (RLANs), shall be restricted to indoor use.
