WorkForce DS-800WN

DATASHEET / BROCHURE

The WorkForce DS-800WN is a high-speed, Wi-Fi and network-integrated scanner with open platform compatibility.

This business scanner offers a comprehensive solution for efficient, reliable, secure and user-friendly document scanning. With its advanced features, seamless integration (with third party solutions) and an intuitive interface, the DS-800WN is ideal for businesses of all sizes. It's also manufactured using 30% recycled plastic[1] and has low power consumption.

Open platform
The DS-800WN features web-based open platform which allows seamless integration with Epson software or third-party software solutions. This means that businesses can customise their systems and integrate the scanner with existing infrastructures, business processes and workflows.

Network connectivity
Integrated network connectivity means that the scanner can be shared by multiple users and each user is able to create their own settings. Also, the LCD touchscreen allows the user to operate the scanner directly, without the use of a PC.

High speed
The DS-800WN processes and digitises a high volume of documents, quickly and securely. Scan speed of 50ppm/100ipm, a daily duty cycle of 8,000 pages and an optional paper alignment plate, make this an ideal scanner for a wide range of industry sectors: from government, healthcare and legal, to finance, accounting and education.

Efficient
Built with efficiency in mind, the DS-800WN offers low power consumption, whether idle or in use. It's also made from 30% recycled plastics (from discarded IT products).[1]
