

Panasonic

ideas for life

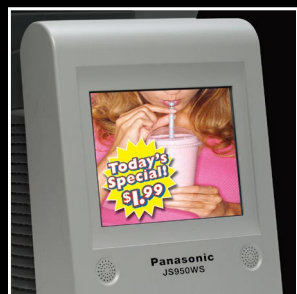

JS-950WS the power to change

Field-replaceable hard drive

Customizable 3 1/2" or 2 1/2" hard drive, compact flash (CF) card, or 2 1/2" hard drive with CF card

(Compact Flash Option TBD)

POP display/order verifier

Rear-facing, 2 line or 4 line optional customer order confirmation displays improve order accuracy

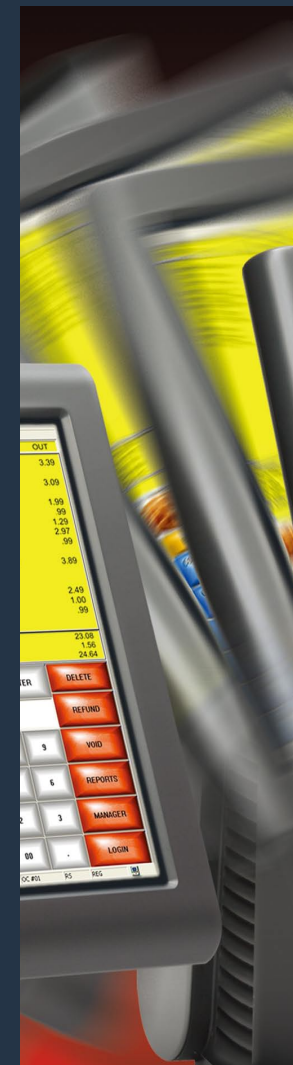

Optional built-in full screen rear LCD display for promotions and improved order confirmation/accuracy

Magnetic card reader

Optional magnetic card reader can be mounted in two different positions

Supports 3 tracks of information, allowing acceptance of credit, debit, gift, loyalty, and crew cards

modular

JS-950WS's unique all-in-one modular design allows convenient, cost-effective customization to meet specific application needs. Configure JS-950WS with the confidence of knowing you have the power to change any time. Increase RAM, swap or change hard drives, remove or replace the LCD display or switch the display from landscape to portrait, add a card reader where you want, or add security devices – all without a technician. All of which makes JS-950WS a smart economic choice as well.

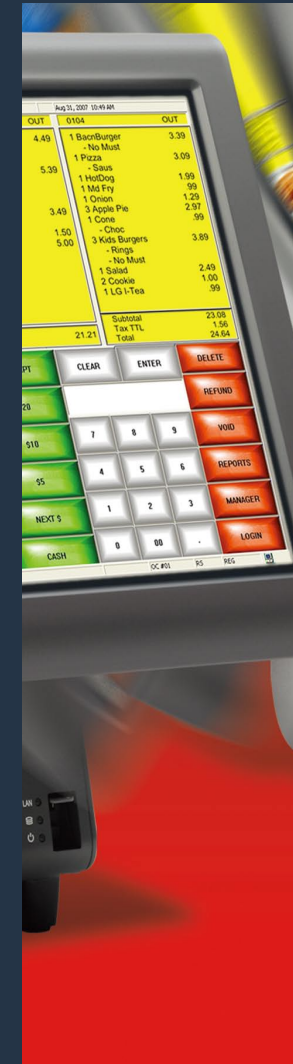

Security features

Integration of security solutions such as fingerprint/biometric readers and Dallas key systems for operator ID verification

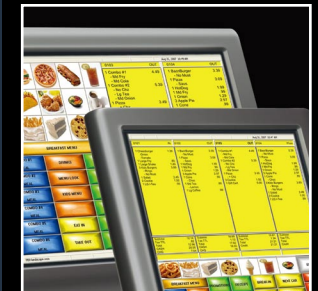

Highest-speed processor

Runs virtually any application
Upgradeable RAM to run multiple applications

User-changeable LCD display

Adjustable, dual back lit LCD display
High-resolution, high-contrast images for faster, more accurate order taking
Available in 12" or 15"
Resistive or capacitive touch screen technology
15" LCD anti-glare touch screen display can be oriented as portrait or landscape

open architecture

Panasonic transforms the POS market with the revolutionary new JS-950WS – the workstation with the power to change. JS-950WS's open architecture runs virtually any operating system and software, so you can implement most any off-the-shelf or custom POS application to meet your specific needs. With the highest speed processor and up to 2 GIG of on-board RAM, JS-950WS is ideal for stand-alone applications or integrated into a network to run the most demanding back office operations. JS-950WS even runs multiple software applications, for enhanced functionality. And JS-950WS is backwards compatible, allowing operators to replace one workstation at a time for maximum cost-efficiency.

something important beyond specs

JS-950WS's customer-replaceable module structure(*1) contributes significantly to the reduction of TCO(*2) in your business. No screw driver is required to exchange the modules(*3), which gives you the dramatically-improved serviceability more than ever before.

- Minimizing the downtime of POS terminals, when being repaired, secures the sales efficiency during busy hours without losing POS terminals.
- Reducing on-site service cost throughout the lifetime.

(*1) LCD module, Storage module, Customer Display module and ID device module

(*2) Total Cost of Ownership

(*3) LCD module, Storage module and Customer Display module

powerful, durable, reliable and cost-efficient

JS-950WS provides all the power and speed to run virtually any software application. Configure JS-950WS to meet the demands of your business today, with the ease and convenience to upgrade as your business grows or your needs change. Built to withstand spills, static, dust, dirt, shock, grease, extreme temperatures and humidity, JS-950WS delivers all the durability and reliability you've come to expect from the company with nearly a million POS solutions placed worldwide.

Put the power to change to work for you with JS-950WS - only from Panasonic.
