

Epson EU-T532: 80mm, 24V,ANK, PM, CBM, CSPM, B/M/R

Petrol forecourts, ATMs and vending machines provide a comfortable home for this highly durable thermal printer

KEY FEATURES

Durable and flexible

For larger kiosk applications, the EU-T500 series is a cost effective and highly durable thermal printer, offering ultra-fast printing of complex graphics including bar codes. Options include the automatic retraction of uncollected coupons, and a black mark sensor allowing for issuing of coupons or tickets on pre-printed paper.

Easy to maintain

A 780 metre long paper roll (up to 10") means that around 10,000 coupons can be printed before a replacement is required, which together with the remote status monitoring software, means that maintenance is less frequently required. Ideal for demanding applications such as petrol forecourts, ATMs and vending machines

Many options

An optional automatic retracting function prevents loss of personal data and enable safer coupon and receipt issuing with the optional Cut Sheet Retracting Module.

For remote terminal use and stable operation, Status Monitor (included with the EPSON Advanced Printer Drivers) provides various monitoring information like

- All Paper Sensors (paper near end, paper detector,.....)
- Printing (Ticket) -End
- Cut Sheet Presence
- Cover Open
- Off Line Status
- Retracted Paper Remaining
- Second Paper Near-End*
- Maintenance Counter

PRODUCT SPECIFICATIONS

PRINT TYPE

Print method	Thermal line printing
--------------	-----------------------

PAPER

Paper Types	Receipt
Paper dimensions	79.50 ± 0.50 (W) mm x dia. 254.00 mm max.
Paper Thickness	0.06 µm - 0.15 µm
Paper Path	Straight

INTERFACES

Interfaces	Bidirectional parallel, RS-232
------------	--------------------------------

GENERAL

Product weight	2 kg
----------------	------

LOGISTICS INFORMATION

SKU	C41D120122
-----	------------

EAN code	8715946098319
