Remove / Install the Battery Cover

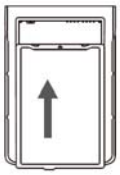

1. Unlock the battery cover by switching the battery lock to “unlock” position.

2. Press and pull the battery cover to remove it. Follow the arrows circled in red.

3. Insert the battery in the direction as shown.

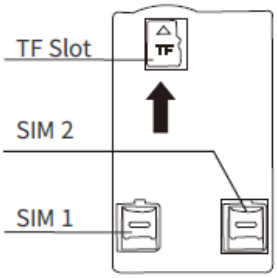

4. To lock the battery cover by switching the battery lock to “lock” position.

Using the TF card / Nano SIM card

The EA320 has 1 x TF card slot and 2 x Nano SIM card slots inside the battery compartment. Gently press the card into the card slot accordingly. Please do not push or press SIM and TF cards.

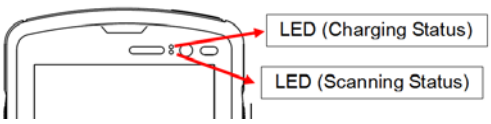

To remove the card, press the card and release. The card pops out. Remove the card from the slot.

Charging the Battery

Before using the terminal for the first time, you need to charge it for about 24 hours. For the regular use, you can charge the terminal for 4 hours to recharge the battery to full capacity. Charge the terminal using the USB charging cable or the cradle. Connect the type C USB cable to the USB port on EA320 and the other end of the USB cable please connect to AC power adapter into the electrical outlet on the USB plug. The charging LED indicator on EA320 is turning red when it is in charging state. The red light is off after the charger is fully charged.

Checking the LED status
