

pcProx[®] Sonar

**No software hands-free auto locking
presence detector**

Overview

The plug-n-play pcProx Sonar solves security risks and privacy concerns with unattended computers without requiring additional software or user action. This solution is a presence detector, not a badge reader. When a user steps away from the computer, the product automatically locks the computer. It detects a user's presence so the computer will not lock until the user physically steps away, avoiding awkward time-out settings.

The Sonar easily attaches to the PC via a USB port and emulates a keyboard device. This operating mode allows the device to send individual keystrokes and delays to be defined by the user. For example, a Windows XP[®] equipped system would send a sequence such as Windows "GUI" + "L" to lock the computer when the user walks away.

No software is deployed on the client or server. The pcProx Sonar contains configurable flash memory which holds user- definable keystrokes, delays, settings, and trigger distance (2–5ft).

Benefits

- Automatic computer locking, presence detection
- Inactivity monitoring
- HIPAA compliant by protecting sensitive data

Features

Easy Installation: The pcProx Sonar easily attaches to the computer as a USB keyboard. No software is deployed on the client or server. All configurations are done through a utility provided at no cost. Keystrokes, delays and distance information is automatically stored in the device. The need for IT support and software updates is eliminated.

Compatibility: Supports any operating system with a USB port. Windows CE®/2000®/XP®/Vista®/7®, Macintosh®, Solaris™, Sun Ray™ thin clients, and Linux.

Eliminates Time-Outs and User Reliance: Intrusion and impersonation associated with unattended or unlocked computers is eliminated. Time outs, which can interfere with the course of business, are no longer a problem.

Medical/Healthcare HIPAA Compatible: Meets medical and healthcare HIPAA requirements when used as a logical access solution.

Specifications

Typical Maximum Read Range: Adjustable 14" – 60"
(35.56cm – 152.40cm)

Dimensions: 1.75" x 1.75" x 7/8" (4.45cm x 4.45cm x 2.2cm)

Weight: 3.5oz (99.2g)

Power Supply: 5V via USB port

Transmit Frequency: 40 kHz

Operating Temperature Range: 40° to 120°F
(4.44° to 48.8°C)

Operating Humidity Range: 0% to 95% relative humidity, non-condensing

Indicator: Tri-state LED

Warranty: One year for material/workmanship defects; see complete policy for details.

Certifications: FCC Certification, United States; RoHs
