

Rugged All-in-one Handheld Computer

BIP-1500 Series

BIP-1500 Series

INDUSTRIES

Retail

Public Transport

Hospitality

Finance

The rugged all-in-one handheld computer, BIP-1500 Series, is designed to meet growing demands between enterprise mobility (AIDC) and payment industries for 2" or 3" thermal printer options, multiple data collection options including built-in RFID reader, and versatile payment options such as MSR, contact payment, contactless payment, PIN transaction, and fingerprint reader.

KEY FEATURES & BENEFITS

Smart Choice

2" or 3" Thermal Printer, RFID, Barcode Reader, Card Reader, Finger Scan, PIN Pad

The dual-sided BIP-1500 Series design is capable of multiple combinations, providing more choices of hardware platform as per each business need. In terms of mobile data collection, it offers 1D laser scanner or 2D CMOS imager, RFID reader, and 3 megapixel auto-focus camera. It has a built-in thermal printer option of 2" or 3" width, and a standard battery with 3 different payment types - Payment, Finger Scan, or PIN Pad - or an extended battery option without payment.

Easy to Carry, All-in-one

PCI PTS 3.0 / EMV Level 1&2

The BIP-1500 Series is a printer-integrated rugged handheld computer. This all-in-one package is eliminating the inconvenience of when field force is using both handheld computer and a mobile printer together. This handy package helps reduce the force's fatigue during carrying, operating, and even charging.

Rugged Integration

IP54 / 1.5m Drop

The BIP-1500 Series is designed with long-year experience in rugged handheld computer. This Series including integrated thermal printer and payment options is built to withstand harsh environments both inside and outside the four walls. It meets IP54 sealing requirements and withstands 12 drops at 1.5m to steel surface.

User-friendly

Windows Embedded Handheld 6.5, HSPA+, WiFi, Bluetooth, GPS

The BIP-1500 Series with the newest Windows-based operating system makes it easy to install custom applications and is compatible with back office computer. This WiFi and Bluetooth equipped handheld computer with HSPA+ or GSM options enables enterprises and governments to stay connected with their field workers in real-time. It also supports 2 SIM and 4 SAM card slots to meet business demands.
