

star[®] FVP-10

Front Loading, Voice Enabled Platform Printer

The FVP-10 is designed to bring an array of new benefits like front loading, onboard USB, receipt compression for paper saving and multiple mounting options due to its "platform" design combined with the high quality and high-speed printer performance that POS users have come to expect from Star. Star Micronics has developed the FVP-10 to assist users who:

- Have counter space challenges
- Require a splash and dust resistant printer
- Need to print a receipt as fast as possible to decrease customer wait time
- Want to communicate to staff and customers in a language they understand

The FVP-10 features an ultra high print speed of 250mm/sec and front paper loading for easy paper roll changing. Its square design & front paper loading allow for it to be easily under-counter mounted or used as a platform to mount other devices. The FVP-10 can support up to 7 pounds of accessories on its top. Text to voice feature enables users to communicate important information with both staff and customers. For example Voice alerts to remind an operator to start a specific task can easily be programmed to be spoken before or after the print job.

3 Models Available:

- Standard FVP-10USB with CD and USB cable but **no** power supply
- The Platform FVP-10USB with CD, USB Cable, Platform Extension **and** Power supply
- The Under the Counter FVP-10USB with CD, USB Cable, Under the Counter Connecting Kit **and** Power Supply
